

Year 2013 - 2014

Bachelor Degree

Name

Thesis Title

Session

Nicola Di Vico

of accelerometers integrated in smartphones

July

Pietro Esposito
Andrea Russo

Classification of modulation and instrumentation in the aeronautical
Measures for the drones and drones for measures

Master Degree

Alessandro Parrella

and consumption in cryogenic system for a particle accelerator

July

Donato De Paola

able impact in differential capacitive position measurements

October

Salvatore Santillo

test station for characterizing automatic gear levers of motor vehicles

October
